Election/Restrictions

1. Applicant's election of Group II in the reply filed on 3/29/06 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). It is noted that applicant did traverse the species requirement in reference to the elected Method claims, the Examiner agrees that the Method claims are all generic to all of the species and there is no species restriction in the Method claims. Applicant did not provide any arguments directed towards the restriction requirement between the article (orthotic) and the method and therefore this portion has been treated as an election without traverse.
2. This application is in condition for allowance except for the presence of claims 1-30 directed to an invention non-elected without traverse. Accordingly, claims 1-30 have been cancelled.
3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 1-30 have been canceled.
